RELEVANT EXPERIENCE

Lead Software Engineer @ JPMorgan Chase & Co.

AUG 2023 - Present / 11 mos / Full-time, Hyderabad

- Lead the development of several initiatives to increase the rewards redemption rate in the Chase Mobile App.
- Refactored the architecture of component package by introducing sensible modularisation to make it more maintainable and testable.
- Evaluated the existing large scale codebase, quickly grasped critical aspects and made enhancements to deep link handling.
- Oversaw the onboarding of iOS trainees, led training sessions and assisted teams with meticulous code reviews.

Senior Technical Consultant (Mobile) @ Tarka Labs

AUG 2020 - MAY 2023 / 2 yr 10 mos / Full-time, Remote

- Consulted as an iOS developer for major clients, leveraging SwiftUI and multi-platform frameworks.
- Contributed to a suite of iOS apps, as a platform lead by resolving technical debt, prototyping new ideas, and leading development efforts.
- Introduced modern architectures to improve testability while maintaining a high standard of code review with examples.
- Designed and developed reusable, accessible interfaces, including inspections — a highly customizable and complex feature on IBM's Maximo.
- Recruited, mentored, and aligned a group (~8) of iOS collective on the app's technical vision.
- Used several frameworks such as Core Data, XCTest, Mixpanel SDK, Combine, and MobSF.

Senior iOS Consultant @ Self Employed

JAN 2020 - JUN 2020 / 6 mos / Full-time, Remote

- Contributed to the initial release of an iOS app that integrated Events and Webinars onto a virtual platform.
- Authored initial project setup using MVVM-C architectural pattern, and ensured adherence.
- Developed user-facing features like event feeds, user profiles, and the fundamental function of live event streaming with chat, polls, audience list and Q&A section via Pusher SDK.

Senior Software Developer (iOS) @ Selling Solutions Scandinavia AB

DEC 2016 - DEC 2019 / 3 yrs 1 mo / Full-time, Remote

- Developed and maintained major features of the iControl app that included real-time sync and offline support with Couchbase Mobile SDK.
- Automated testing and deployment using Fastlane, managed releases and TestFlight builds on AppStore Connect.
- Designed and implemented several interfaces for optimal user experiences, including PDF file annotations with PSPDFKit.
- Wrote documentation for the project and worked effectively with remote teammates.

Senior Software Engineer (iOS) @ Y Media Labs

OCT 2015 - NOV 2016 / 1 yr 2 mos / Full-time, Bengaluru

- I built iOS applications for a diverse array of client and internal projects.
- Contributed to a total of five iPhone apps, two of which featured in the App Store.
- Interviewed new candidates & mentored new hires and junior teammates.

Software Engineer (iOS) @ Mobinius Technologies

OCT 2012 - SEP 2015 / 3 yrs / Full-time, Bengaluru

- Began career as an iOS trainee focusing on objective-c and app development.
- Successfully integrated early stage third-party framework based on research.
- Optimized backend and performance for universal app built on CouchDB.

NOTABLE PROJECTS
